had been waived I, as far as possible, urged that these precedents should be followed. In connection with repairs to the Langungad Temple the Comptroller said that generally establishment &c., charges should be paid and that the waiving should only be in exceptional cases. Then again I began to seek for a way out of the difficulty. Casually when going over the Weather book file I found that this matter had been urged once before by [illegible] and that the late Dewan P. [illegible] had promised to consider the matter if pressed in connection with real Ashram buildings.

I now beg that the above may be considered and that in consultation with the Chief Engineer and the Comptroller the system of sanctioning Establishment &c., charges for [illegible] in the Public Works Department may be modified with.

Submitted to Dewan through II Councillor.

Bangalore,
November 1910.

Under Secretary,
Mysore VII.

I agree. They should, (unless when private works under Muz. Management, if there are any such) be treated as Govt. works within the regular

17/2/1911

W.O No. 34 (P.W.) 2 Sections 4 & 5
Dt. 21.2.1911.

On every work done for the Muzrai Depart- Department by the P. W. Department, a share of the establishment charges is debited to the former. If we exempt one Department after another from the responsibility of paying for the establishment actually utilised we shall be departing from principle.

If the total expenditure in each department is correctly known, there will be a check on the growth of work in that Department. If the expenditure on establishment is for a Muzrai work, it should be so called and treated as such. It [illegible]

to difficulties if the advantage of the work is derived by the Muzrai Department and the outlay is treated as Public Works expenditure.

The amount involved in this case is small but the principle is important.

For Chief Engineer of Mysore

Bangalore,
24th April 1911.

Forwarded to the Financial Secretary for favour of opinion -

26.4.11.

The Muzrai Deptt is in reality a Local Fund to which the State annually makes some contributions. It does not therefore seem desirable to waive the Establishment charges for work done but if the Dept'n is indirectly throwing more burden on the Fund it would in fact an indirect increase of the Contribution still further

I hold that for 2 by this procedure merely discounts what it grants to the Imp Depts for expenditure. It is of little interest to the P.W.D what is done, except that they get a little more money to spend. Now that the grants are getting less than usual, I would recommend that for 2 may waive contribution as a further help.
